Bianca is passionate about contributing to growth,

this being either individual, team or organizational growth. And of course the three are connected. She has done this and is still doing so in her many years of experience as a HR Director and in her role as trainer.

She is also highly intrigued by why people act the way they act and the things that can be done to influence behavior in order to get (better) results.

She is used to an international environment and can relate to all kinds of cultures and situations.

“ Bianca trains with energy, enthusiasm and humor, **always drawing from her own experience as a manager.** ”
